

MY CHOICE

**I want to be a productive citizen now and no longer an
inmate
Time to deal with what life throws at me I'm stepping to
the plate**

**I need to make positive choices for me and my children
They do not need to see or go through where I have been**

**I can see the pain that my community is going through
It's time to take a stand and be a voice I know what I have
to do**

**I will no longer be silent that I refuse
Because I have the right to vote and the power to choose**
